Introduction

Include relationship with other documents.

SOLAR-B E I S 	Reference Documents
--	---------------------

Reference Documents

References to project documents follow EIS conventions as laid out in the management plan (*EIS-man--manplan*). Other documents have external document numbers as follows.

EIS-x-1 : Japanese Proposal for Solar-B Mission, prepared by scientists at NAOJ (the National Astronomical Observatory, Japan).

EIS-x-2 : *The Solar-B Mission - Final Report of the Science Definition Team*, June 19, 1997. (various authors). <http://www.ssl.msfc.nasa.gov/ssl/pad/solar/sdt-rpt.htm>

EIS-x-3 : *EUV Imaging Spectrometer*. A document prepared by H. Hara from (NAOJ) presented on the 14th of May at ISAS.

EIS-x-4 : T. Shimizu's *MDP* document

EIS-x-5 : *Preproposal Briefing for ISAS Solar-B Mission* (ISAS, NAOJ)- as presented at NASA HQ 22/5/98.

EIS-x-6 : *UK Proposal to PPARC*. EUV Imaging Spectrometer for the Japanese Solar-B Mission, submitted by : MSSL (J. L. Culhane, R. D. Bentley), Birmingham University (G. M. Simnet), Cambridge University (H.E. Mason), Imperial College of Science Technology and Medicine (P.J. Cargill), RAL (J. Lang, S^t Andrews University (E. R. Priest).

AO-98-OSS-05 : Solar-B Announcement of opportunity, NASA, 1/5/98. Available at <http://www.hq.nasa.gov/office/oss/ao/98-oss-05/>
