b) Impediments to progress:

Project Code	Impediment	Suggested/Required Solution	
		Action Required	By:
LKH02	Mission related issues get in the way with Faz and myself!	Find free time to hide away.	LKH
LKH03	Need to spend time with collaborators	Arranged visit in March. Also applying for RS joint project.	LKH
LKH06	Currently only good MDI data – need to redo the HOP to get good SOT data.	This was carried out a couple of weeks ago and Sergei is analysing the data is Japan this week.	SZ, LKH
LKH07	Need good examples of strong flows in active regions with slot data and good TRACE data (or SDO when it is launched)	Find a good example of flaring in an AR with slot data – an example has been found by Ignacio.	All!

c) Completed projects for last month:

Project Code	Project Title	Product
LKH00	Emerging flux paper – addressed referee's comments	Lead author submitted to Solar Physics – addressed referee's second comments.

LKH05	Coronal dimming	Co-author submitted to solar physics.
-------	-----------------	---------------------------------------

d) Proposed New Projects:

Project Code	Project Title/Summary	Project Type		Time to Completion*
		Role	Collaborator	
LKH08	Emerging flux – visit to St Andrews in January. Also the emerging flux workshops in March.	SE	Alan Hood, Vasilis Archontis	?
LKH10	Long term evolution of the solar disk, outflows and in situ data	SE	Duncan MacKay, Faz, Lidia	2 years

e) Deadlines (Abstracts, Conferences, Manuscripts, etc.)
